

Indoor / Outdoor Boom Gate Advertising Car Parking Automatic Gate

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: SEWO
- Certification: CE ISO9001
- Model Number: SEWO-C330S-III
- Minimum Order Quantity: 1 lane
- Price: Negotiable
- Packaging Details: wooden box
- Delivery Time: 5-7 working days
- Payment Terms: T/T, Western Union, MoneyGram, L/C, D/A, D/P
- Supply Ability: 2000 sets per month

Product Specification

- Product Name: Advertising Barrier Gate
- Type: Automatic Doors
- Dimension: 680 * 1085 Mm
- Power Supply: AC220V
- Communication: RS485/RS232
- Warranty: 12 Months
- Application: Airport, Office, hotel, supermarket, hospital Entrance
- Working Environment: Indoor/outdoor
- Motor Power: 24V 30W
- Motor Operating Current: 5A
- Width Of Door: 1.15m~1.75 M To Adjustable
- Highlight: Advertising Car Parking Automatic Gate, Outdoor Boom Gate Advertising, Indoor Boom Gate Advertising

Advertising Pedestrian Access Control Door for Non-motorized Vehicle Access Control Management

Discriptions of Platform Screen Doors:

SEWO advertising pedestrian gate, also known as a digital advertising gate or smart gate, is an innovative solution that combines pedestrian access control with digital advertising capabilities. It is designed to enhance the efficiency of entrance management while providing a platform for targeted advertising.

The gate itself functions as an access control device, allowing authorized individuals to pass through while preventing unauthorized access. It can be integrated with various identification methods such as RFID cards, biometric scanners, or QR code readers to ensure secure and streamlined entry.

What sets the advertising pedestrian gate apart is its digital display panel, typically located on the gate surface or nearby. This display panel utilizes high-resolution screens to showcase dynamic and eye-catching advertisements, promotional content, or informational messages. The content displayed can be easily customized and updated remotely, allowing for quick adaptation to different campaigns or target audiences.

Features of Intelligent Barrier Gate:

By combining access control and advertising, these gates offer several benefits.

Firstly, they help generate additional revenue by providing advertising space to external brands or promoting internal products or services.

Secondly, they enhance the overall aesthetic appeal of the entrance area, creating a more engaging and interactive environment.

Lastly, they provide valuable data insights through audience measurement and analytics, enabling advertisers to assess the effectiveness of their campaigns.

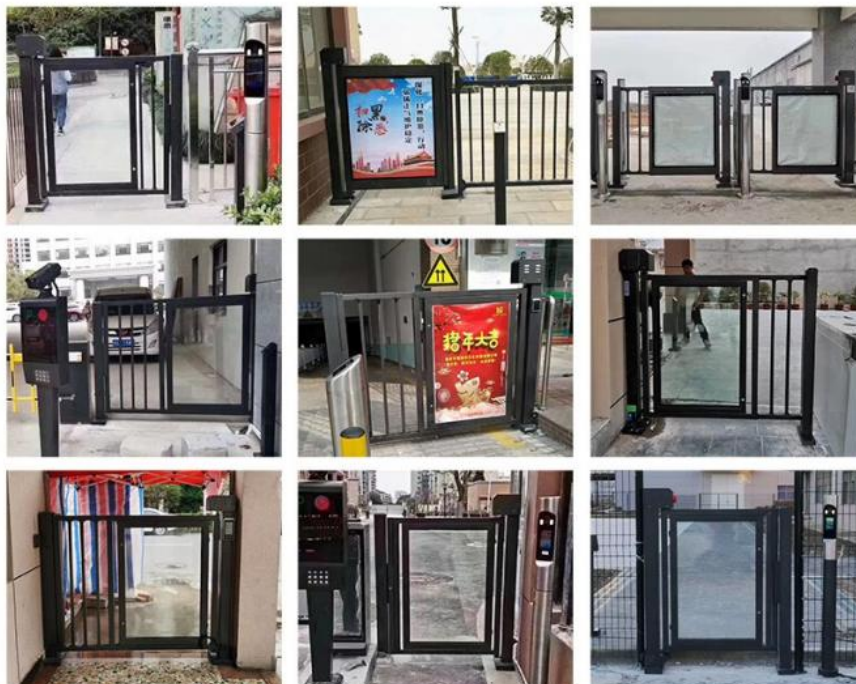

Advertising pedestrian gates are commonly used in commercial buildings, shopping malls, airports, train stations, and other high-traffic areas. They serve as both functional access control points and effective marketing tools, creating a win-win situation for businesses and advertisers.

Specifications of Pedestrian Barrier Gate:

Product Name	Advertising Barrier Gates
Model No.	SEWO-C330S-III
Housing Material	stainless steel
Power input	AC220
Power output	DC24V/6A
