

SUS304 Stainless Steel Flap Turnstile Gate Access Control System

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: SEWO
- Certification: CE ISO9001
- Model Number: SEWO-Y6-150
- Minimum Order Quantity: 1 lane
- Price: Negotiable
- Packaging Details: wooden box
- Delivery Time: 5-7 working days
- Payment Terms: T/T, Western Union, MoneyGram, L/C, D/A, D/P
- Supply Ability: 2000 sets per month

Product Specification

- Product Name: Flap Barrier Gate Turnstile
- Type: Fully Automatic Flap Barrier Turnstile Gate
- Dimension: 1400*300*1000 Mm
- Power Supply: AC 220V
- Communication: RS485 TCP/IP, RS232/485
- Warranty: 12 Months
- Communication Interface: TCP / IP / R485
- Application: Airport, Office, hotel, supermarket, hospital
- Unlock Time: 0.2 Second
- Passing Speed: 40 People Per Minute
- Working Environment: Indoor / Outdoor
- Housing Material: 304 Stainless
- Color: Black Or Customized
- Highlight: **Stainless Steel Flap Turnstile Gate, SUS304 Flap Turnstile Gate, Flap Turnstile Gate Access Control**

Product Description

SUS304 Stainless Steel Flap Turnstile Security Barrier Gate Access Control Systems

Discriptions of Flap Barrier Gate:

The turnstile gate is a mechanical or electronic gate that controls access to a specific arealt typically consists of a vertical post with rotating arms or doors that allow only one person to pass through at a time. The gates are usually made of metal, with options for different finishes such as stainless steel or powder-coated colors.

The Flap Barrier Turnstile gates can be accessed by using a valid ticket, keycard, or authentication method such as facial recognition or fingerprint scanning. Once the user presents their credential, the gate unlocks and allows them to pass through. Some models also have a feature for detecting tailgating, where the gate remains locked until the previous user has fully passed through. The gates can be installed as standalone units or integrated with a larger access control system for a specific venue.

Features of Flap Barrier Turnstile Gates:

More Secure.Encoder+Clutch brake allow the arm stopping at any point when it detects possible pedestrians with 8 pairs of IR sensors. Tail-gating,passing back ,intrusion are able to be detected and forbidden by system.In case of power failure or emergency, the arms will open automatically for escape.

More Flexibility.Our speed gate provides mass flexibility. Pedestrians with luggage, briefcase, Baby stroller or wheel chair users can pass through easily too.

More efficiency. 0.2 second open/close speed offers high speed passing through and throughput will be increased by 30% up.

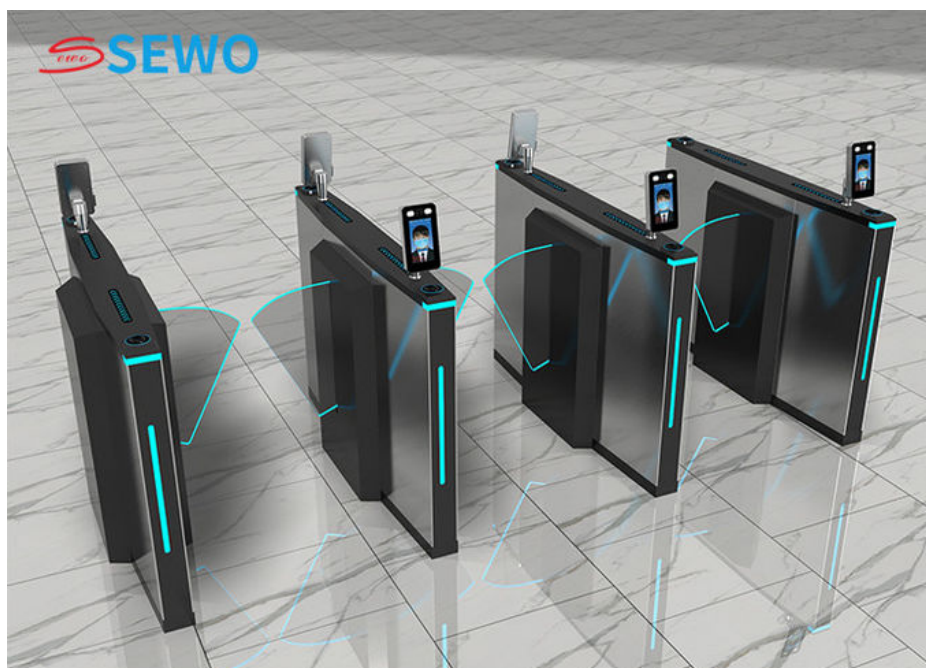

More Application. Speed gates are widely used in public areas especially facilities, where disabled accesses are needed or strollers are commonly used.

Specifications of Flap Barrier Turnstiles:

Product Name	Luxury Black Series Flap Barrier Gate
Model No.	SEWO-Y6-150
Housing Material	SUS304 stainless steel
Swing Arm Material	PMMA
Passing Width:	≤1100mm
Product Size(L*W*H)	1400*300*1000mm
Unlock time	0.2 second
Infrared detection	6 Pairs
Passing Speed	40 people/minute
Driving Motor	DC 24V Brushless motor
Working Voltage	220V, 50Hz
MCBF	≥ 10,000,000 times

Applications:

Widely used in squares, stadiums, gyms, hotel, commercial building, offices , hospital , schools , factories, government agencies, bank, dormitory, library,shopping malls, supermarkets and so on.

1, What is the strength of your company in this industry?
