## Product Description

# Automatic Swing Gate Turnstile with Anti-tailgating Features | Enhance Building Security

### Swing Gate Turnstile – Secure and Elegant Pedestrian Access Control Solution :

Our **Swing Gate Turnstile** is the perfect solution for high-security areas requiring seamless access control. Designed to provide both security and convenience, it offers a reliable method for managing pedestrian traffic while preventing unauthorized entry. Ideal for office buildings, corporate campuses, government facilities, public transportation hubs, and more, this turnstile ensures a streamlined and secure flow of people.

#### Key Features of Swing Gate:

##### Advanced Anti-Tailgating Technology

The **Swing Gate Turnstile** features cutting-edge anti-tailgating sensors that detect unauthorized entry, ensuring only one person passes through at a time. This minimizes the risk of unauthorized access and enhances security in controlled environments.

##### Smooth, Quiet Operation

Designed for both speed and efficiency, our swing gate turnstile operates quietly, allowing for rapid pedestrian flow without disruptions. Its automatic operation ensures smooth entry for authorized individuals, even during high-traffic periods.

##### Durable and Reliable

Built to withstand heavy usage, the **Swing Gate Turnstile** is made from high-quality materials that ensure long-lasting performance. Whether it's a busy office lobby or a transit station, this turnstile is engineered to deliver superior reliability in demanding environments.

##### Seamless Integration with Access Control Systems

Our turnstile is easily integrated with existing security infrastructure, including **RFID readers, biometric scanners, and smartcard systems**. This ensures seamless compatibility with your current access management solutions.

##### Elegant and Space-Saving Design

The **Swing Gate Turnstile** combines high security with a sleek, modern design. Its compact form factor is ideal for areas with limited space, such as building entrances, office lobbies, or transit terminals, while still providing a professional and elegant look.

##### Customizable Features

Tailor the swing gate turnstile to suit your specific needs. Choose from a range of configurations, including single or dual lanes, various finishes, and additional features like LED indicators, touchscreens, and more.

##### User-Friendly and Safe

Designed with user convenience in mind, the swing gate provides easy passage for authorized individuals and ensures a smooth entry. It also comes equipped with safety features, including emergency escape functions and adjustable passage width to accommodate different user needs.

##### Low Maintenance & Energy Efficient

With low-maintenance components and energy-efficient motors, our swing gate turnstile is designed for long-term, cost-effective use. Enjoy peace of mind knowing that your access control solution is both environmentally friendly and budget-conscious.

### Specifications of Swing Turnstile Gate :

Product Name	Swing Gate Turnstile Series
Model No.	SEWO-B1-100D
Housing Material	SUS304 Stainless Steel
Thickness of Housing	1.2mm
Product Size(L*W*H)	1000*100*1000 mm
Passing Width	≤1100mm
Transit speed	45 people/minute
Unlock time	0.4s
MCBF	≥ 3,000,000 times

### Advantages of Swing Gate:

- 1). Running stably without noise and mechanical impact
- 2). The number of the passing persons can be counted via the built-in people counter
- 3). Several ways of working modes for option
