- Usage: Office, Hotel, Library, Metro Station, ect.
- Highlight:

201 Stainless Steel Swing Gate Turnstile, Customizable Arm Length Swing Barrier Turnstile

20-60 People/Minute Transit Speed Access Control Turnstile

Product Description

Swing Turnstile Gate Access Control Security Systems Electronic Stainless Steel Product

Premium Security for High-Traffic Areas :

The Swing Gate Turnstile Gate is a cutting-edge access control system designed to enhance security, streamline pedestrian flow, and deliver unmatched durability in high-traffic environments. Ideal for offices, stadiums, metro stations, airports, and industrial facilities, this turnstile combines sleek aesthetics with heavy-duty performance to meet modern security demands.

Key Features of Swing Gate Turnstile:

- Wide adaptability: The channel width, gate swing material, and verification method can all be customized.
- Safe and reliable: Multiple anti-collision and anti-impact designs + fire emergency function.
- Efficient and energy-saving: The DC motor has low power consumption and can maintain low noise even at high frequency operation.
- Easy to manage and use: Visual operation interface + remote operation function.
- High cost-performance ratio: Industrial-grade quality combined with affordable pricing, resulting in lower long-term usage costs.
