**SEWO-CP11 License Plate Recognition Parking System**

**Common Project Solutions**

SEWO ALPR Parking System (Entrance \*1 + Exit \*1)

**Standard Configuration:** CP11 ALPR Parking Equipment (Build-in Parking Boom Barrier) \*2

**For Temporary Visitors:** When a vehicle leaves the parking lot, after paying the parking fee, the barrier opens for release after confirmation by management staff or through automatic payment machine.

**For Long-term Customers:** License plate numbers registered in the system enable automatic recognition for entry and exit, with all access information recorded in the management backend.

### SEWO ALPR Parking System + Ticket/Card Parking System

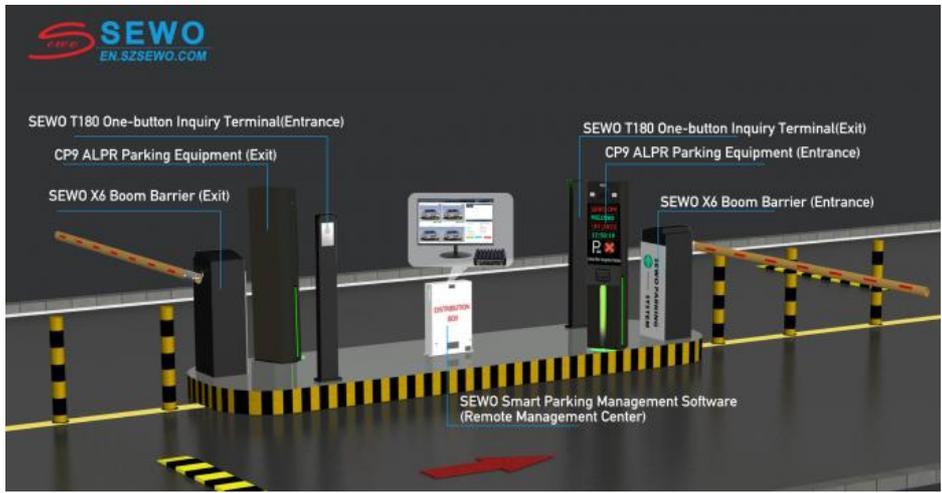

**Standard Configuration:** ALPR Parking Equipment, Ticket/Card Parking Equipment, Parking Boom Barrier, Parking Management Software, Real-time monitoring camera (Optional), Parking Payment Machine (Optional)

**For Temporary Visitors:** Payment-based barrier release after fee confirmation.

**For Long-term Customers:** Automatic license plate recognition for registered vehicles.

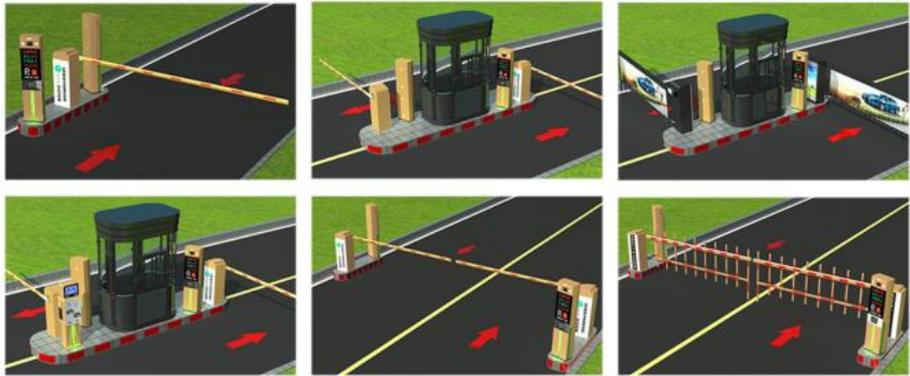

**For Vehicles Without License Plate:** Ticket or card collection at entrance with payment-based exit.

### SEWO ALPR Parking System with Remote Management Center

**Features:** Remote one-click call terminals enabling real-time communication with management center.
